

Sure Safe[®]
Paper Machine Cleaners

Sure Safe Sustainable Cleaners

Sure Safe products can clean the entire paper machine – from fabrics to frames. These products provide effective results without the use of caustic, which provides your mill with health, safety and environmental benefits.

Benefits and Features

- Effective for press felts, wires, driver fabrics or TAD fabrics cleaning
- Can be used with continuous, batch on-the-fly or DuPulse® applications
- Can be used for general purpose paper machine cleaning
- Effective against wide variety of soils – pitch, stickies, oil, grease, and scales

Unlike caustic cleaners, Sure Safe provides the following benefits:

- Reduce fines swelling that leads to fabric filling and poor dewatering
- Reduce the risk of sheet crushing or rewet during cleaning

Safety and Environmental Benefits

- Noncorrosive to skin – improved worker safety
- DOT nonhazardous
- Contain no alkyl phenol ethoxylates (APE's)
- Contain no SARA 313 reportable ingredients
- Contain no California Prop 65 ingredients
- Cleared for use under FDA Title 21 CFR paragraphs (176.170 and 176.180)
